It has also been accompanied, as these unusual heats always are with an inducens epidemic; colds, cough, and fever have been extensively prevalent, and from this cause probably it is, on the principle that two maladies cannot co exist in the same locality, we hear scarcely anything now of yellow fever. Plantations are beginning to suffer for want of rain. So long as there is sufficient water in the navigable cannot occur, we have head is the very best for all the processes of manufacture. But young canes, of which large quantities have been planted and the spring from the ration of the cane that has been cut, require moisture for their healthy growth. The weather has, however, a settled dry appearance.

Business in the city is represented as excessively dull. Previsions are searce and dear. The settlement of the fisheries question will, in all probability, bring us a supply of the indispensable article sait fish, which has been so high in price as to be almost thrown out of the market as an article of retail. Trade will improve as the year grows older, and as estates get their crops gathered in.

There is no political news. His Excellency the Governor returned to the city, from Berbico, on the lith, after an

MONEY MARKET.

TUESDAY, Oct. 19-6 P. M. The arrival of the steamship Crescent City, from Havama, had a very favorable effect upon the stock markets and raised the spirits of holders to a high point. At the first board, an improvement in nearly every fancy on the list was realized, and the transactions were larger than we have noticed for some days. From the numerous cash purchases, we should judge that the bears were buying in some of their shorts. North American Trust went up three per cent, in anticipation, it is said, of a decision ome time next week Most of this stock is in the hands of lawyers, who have purchased largely, in expectation of a compromise being uitimately made between the stock-holders and bondholders. Nicaragua Transit was in de mand at better prices, and the sales were principally for cash. It advanced % per cent. Eric Railroad advanced % per cent; Harlem, %; Stonington, %. There were sales of Ulster Mining stock to day, at ten r cent. Recent discoveries in the mines of this compamy, have made its stock sought for in the market, at a handsome advance. The company have just receive? from the superintendent of the mines, some magnificent epesimens of copper ore. They are certainly the finest we have ever seen. Large quantities of this, and the lead ere of the company, will be brought to market, via the Delaware and Hudson canal, before the close of navigagular vein, inexhaustible in its supply, and of great pu rity. The stock must rapidly improve in market value one is auxious to sell, even at the advance. The declina in Stonington and Norwich is attributed entirely to the travel on the Sound. The great reduction in fare, and the spirited competition carried on, must materially requiet for some time past. The transfer books are now closed, and an election for officers for another year is will be made in the direction. In the meantime, we should like to see the report which has been so long preparing.

At the second board the market was quite buoyant, but the stock offering was limited. Nicaragus advanced 34 per cent; Cumberland Coal, 14; Eric Railroad. 14. re were no sales of Florence and Keyport at either board, to day. It was offered at twenty-eight per cent rithout finding buyers. A few days since it sold at fifty. two. There were, apparently, plenty of buyers at fifty but no one feels disposed to touch it at twenty-eight.

We learn that a company has lately been formed in Breaklyn for the manufacture of white zinc paint from

the imported zinc metal. It is stated that a better qualithan in any other way. The company have a smaller capital than other zine companies in this vicinity, and there is very little doubt it will be a profitable concern

The demand for foreign exchange, for remittance by the steemship Asia, for Liverpool, to-morrow (Wednesday), has been quite active, and rates have been well sustained. We quote bills on London at 10% a 10% per cent premium; on Paris, 5f. 13% a 5f. 12%; Amsterdam, 41 a 4114; Bremen, 79 a 7636; Hamburg, 3636 a 26%. The steamer will take out nearly half a million of specie. The Potomac Savings Bank, of Washington, D. C., has

spended payment. We do not know the extent of its abilities, or the value of its assets. A new bank, under "ie of the "Bank of Columbia," is about commencing in Washington. The small note law will interfere materia. The merchants of Portsmouth, Va., have resolved that they well, after the 1st of November, refuse to take all notes of a le. denomination than \$5, except the notes of North Carolina best less than \$5, except from this time, pay out any nowaks of Washington North Carolina notes. Boston Journal gives the annexed account of two new land companies recently started in that section:-Meantime some of the new land stocks are attracting a oderate degree of attention. Among these the Waverley Company, a bright little fancy, ushered into existence about a year since claims a passing notice. The Waverley Company own a valuable tract of land in Watertown, admirably adapted for settlement, consisting of a little more than 200 acres. The Fitchburg railway passes through the centre of the land, making all parts easy of access, at a distance of only about six miles from the riv. The location is reached also by fine roads through in bridge. The property is unencumbered, and the rice Company is provided with a cash capital of \$00, 45 lb which is to be devoted to the improvement and detection of the lands. Several cottages are to be creed, the property is done and graded, are to be fine to be directly according to the plan. rything thus far has been done in the best manner, and good taste has been displayed in the streets, as to width and location, as well as in the architecture and style of the cettages. The Eastern railroad is in progressthrough the grounds and will probably be graded and ready for the rails before winter sets in. By spring the cars will be in motion, and from two depots on the Cary property, residents will be accommodated with an easy mode of conveyance to the city.
